Charity name: WINCHESTER COLLEGE Registered Charity No. 1139000

WHY GIVE SHARES TO WINCHESTER COLLEGE Share giving provides the most generous tax relief available to donors, combining relief from Income Tax (IT) and Capital Gains Tax (CGT). Gifts of shares qualify for IT relief (at your highest marginal rate) equal to the market value of the investments on the day the gift is made, including associated costs such as broker fees. Tax relief can be claimed for the year in which the gift is made. If you are thinking of making a donation to Winchester and if you are also thinking about selling shares, do consider combining the two: not only will we benefit from your gift, but you will also benefit (perhaps considerably) from tax relief.

PLEASE READ Upon receipt of this form, the College's stockbroker will contact your stockbroker to arrange transfer of the shares. The College's normal policy is to sell donated shares upon receipt and reinvest the proceeds in its own portfolio. If the shares are held in electronic form, please provide the details of the bank/stockbroker acting for you. If you hold shares in certificated form, then the share certificates could be forwarded to us (Winchester College Society) and listed here with your stockbroker details. In January 2018 a new 'Markets in Financial Instruments Directive' II (MiFID II) came into force. This is a regulation that increases the transparency across the European Union's financial markets and standardises the regulatory disclosures required for particular markets. This is why you are now required to give us additional information about yourself, before we can sell your shares;

A gift to the College of £10,000 worth of shares made by an individual who is a basic rate tax payer would reduce his or her IT by £2,000 for the year; the same gift would reduce a 40% taxpayer's IT by £4,000 and would give a £4,500 reduction for those with taxable income over £150,000.

Additionally, the donor would not have to pay any CGT on any increase in the value of the shares since they were acquired. If the shares have gone down in value, however, it is not possible to use this loss to offset any other CGT liabilities.

	tax rate:	40%	45%
Value of shares donated to Winchester College (with a chargeable gain of, say, £4,000)		£10,000	£10,000
Donor deducts the £10,000 from annual income liable to tax (assuming a 40% & 45% tax rate)	tax saving:	£4,000	£4,500
Donor saves a further 28% of CGT, which would have been paid on selling the shares (assuming capital gains in excess of the allowance)	tax saving:	£1,120	£1,120
Net cost to donor		£4,880	£4,380
Winchester College receives		£10,000	£10,000

- You do not need to be resident in the UK to benefit from this relief, so long as you pay sufficient UK IT to cover the relief.
